READY TO USE CLEANS ON CONTACT SPRAY ON, WIPEOFF

Instantly removes dirt, buildup grime and greasy smudges from almost any washable surface.

Note: Use care on painted surfaces (particularly indoor latex paint) so as not to create "spot cleaning marks." If sprayed on glass, wipe immediately.

DIRECTIONS

- Hold sprayer about eight inches from surface to be cleaned.
- Spray on and wipe it off! On extremely dirty surfaces, allow to penetrate, apply second spray and wipe.
- Wipe surface with clean, damp sponge or cloth.
- Large areas such as walls and appliances should be cleaned from the bottom to the top to avoid streaking.
- For removal of built-up, caked on grime, or for best results when cleaning rough irregular surfaces, spray on, agitate with brush, rinse and wipe.
